Please mark your calendars!

**Breakfast and Discussion about Diversity and Leadership in Science with Dr. Claudia Mora**

Friday April 17
8:30-9:30 am
Museum of Geosciences, 2062 Derring Hall

Dr. Mora is a stable isotope geochemist who has focused on research in paleoclimate and paleoenvironment. She is a former professor and Department Head of Earth and Planetary Sciences at the University of Tennessee-Knoxville. Currently, Dr. Mora is Group Leader of the Earth Systems Observations Group at the Department of Energy’s Los Alamos National Lab.

This event is co-hosted by the College of Science Diversity Committee and the Women in Geosciences
