IMPORTANT NOTES ON FOLLOWING PAGE

ENVIRONMENTAL CONSERVATION & SOCIETY NOTES

1. **Satisfactory Progress:** By the end of the semester in which the student has attempted 60 hours (including transfer, advanced placement, advanced standing, and credit by examination), "satisfactory progress" towards a B.S. degree in Forest Resources and Environmental Conservation will include the following minimum criteria:
 - Having an in-major and overall grade point average of at least 2.0
 - Passing at least 24 semester credits that apply to Pathways requirements
 - Passing the following courses or their equivalents: BIOL 1105, 1106 and MATH 1025

2. **Foreign Language Requirement:** A sequence of two (2) foreign language courses is required for graduation unless two (2) high school credits of the same foreign language or six (6) transfer credit hours of foreign language have been earned. These credits do not count toward graduation. See catalog section on "Graduation Requirements."

3. **Policy on Student Exchanges:** If studying overseas or at another U.S. university, begin planning at least 9 months prior to your departure to allow time to determine what substitutions, if any, will be allowed and to arrange your schedule to ensure that all requirements for graduation will be met.

4. **In-major GPA Computation:** Includes all courses designated as FIW, FREC, GEOG, NR, and SBIO.

5. An in-major and overall GPA of 2.0 is required for graduation.

6. In accordance with university guidelines, courses satisfying degree core requirements may not be double counted to satisfy other areas of a degree (e.g. Pathways requirements).

7. ***Prerequisites:** Some courses must be taken in sequence to satisfy prerequisites. Check prerequisites for each course carefully as these are determined by each department individually. Consult with the University Course Catalog, Timetable of Classes, and your advisor.

8. **Acceptable Substitutions:**
 - a. STAT 3604 Statistics for the Social Sciences or STAT 3615 Biological Statistics: STAT 3005 Statistical Methods
 - b. MATH 1025 Elementary Calculus: MATH 1225 Calculus of a Single Variable
