General Information about Checksheet: Superscripted annotation after the course number (1) indicates core course of the degree. Core courses are also shaded in light green while [2] indicates courses associated with the major (and shaded blue). Pathways courses are shaded in tan. [3] Indicates Pathways Concept 7 must be doubled-counted with another Pathways Concept course. [4] Senior

Capstone Design must be approved for credit towards the Automotive Engineering major. Additionally [F,S,SI,SII] in credits column indicates terms when a course is expected to be offered. Course offerings are subject to change and the availability of sufficient resources. Students should confirm course offerings in advance with their department. Grade requirements in specific courses are indicated in parenthesis. For example, a minimum grade of (C-) must be earned in MATH 1225. This is also shown in the prerequisite list for MATH 1226 where (C-) is indicated next to the MATH 1225 prerequisite.

Electives: The Automotive Engineering major requires 6 credits of approved technical electives from a list. Please see attached list for technical elective choices.

Change of Major Requirements: Please see http://www.enge.vt.edu/undergraduate-changing-major.html

Foreign Language Requirements: Students must have had 2 years of a foreign language in high school or one year at the college level (6 credit hours) of the same language. College-level credits used to meet this requirement do not count towards the degree.

Satisfactory Progress Towards Degree: University Policy 91 outlines university-wide minimum criteria to determine if students are making satisfactory progress towards the completion of their degrees. The ME Department fully supports this policy. Specific expectations for satisfactory progress for Mechanical Engineering majors are as follows:

- Each student must meet the minimum University-wide criteria as described in Policy 91 and summarized in the Undergraduate Catalog http://www.undergradcatalog.registrar.vt.edu/
- Once a student is in the ME degree (regardless of major), a student must:
    - Complete a minimum of 12 credits that apply toward the ME degree during each 12 month period
    - Maintain an in-major GPA (in-major is calculated using all courses taught under the ME and NSEG designators) of at least 2.00
    - Maintain an extended in-major GPA (extended in-major is calculated using all courses taught under the ME and NSEG designators plus ESM 2104, 2204 and 2304) of at least 2.00
    - Complete ESM 2104, MATH 2114 and MATH 2204 within 45 attempted required course credits (not to include Pathways courses, technical electives or free electives)
    - Complete ESM 2304, ME 2004 and MATH 2214 within 60 attempted required course credits (not to include Pathways courses, technical electives or free electives)
    - Complete ME 2134(C-), 3524, and (3024 or 3624) with 72 attempted required course credits (not to include Pathways courses, technical electives or free electives)
    - Complete ME 4015 and 4544 within 90 attempted required course credits (not to include Pathways courses, technical electives or free electives)

Statement of Hidden Prerequisites: Prerequisites may change. Students are responsible for pre-requisites and pre-requisites of pre-requisites whether specifically spelled out or not on this checksheet. Be sure to consult the University TimeTable or check with your advisor for the most current requirements. There are no hidden pre-requisites in this program of study.

Graduation Requirements: Each student must complete at least 129 semester credit hours with a minimum overall GPA of 2.00 and a minimum in-major GPA of 2.00. In-major GPA is determined from all courses with ME and NSEG (nuclear) designators.
