# Academic Warning Assessment

Your most recent semester GPA was below a 2.0. While your overall GPA is still in good academic standing (a 2.0 or higher), we're concerned about your most recent performance, and want to help you address what went wrong. A hold will be placed on your student account until you meet with your advisor. If your GPA last semester was a 1.00 or below you will also need to meet with an advisor in the College of Science.

Please schedule an appointment with the advisor in your department to review and sign this form. If you have questions about contacting your academic advisor, please call the advising office for your major. For more information please visit the following website:
